Empower Your Workforce with TalentArbor

Looking to infuse empathy, inclusivity, and innovation into your workforce strategy? TalentArbor bridges the gap between your talent needs and a diverse pool of job seekers, ensuring your team reflects a wide spectrum of human abilities.

Why Choose TalentArbor?

TalentArbor offers a dedicated program management platform for sustainable, inclusive hiring. It enables employers to:

- Consolidate program information from multiple systems
- Automate tracking of program statistics and engagement
- Integrate disability hiring into regular business operations
- Leverage disability as a catalyst for innovation, productivity, and market growth

Job Alignment Indicator (JAI) — 80
Location Availability Indicator (LAI) — 40
Potential available candidates — 24

Harnessing AI for Employers

Analyze your job's title and description to estimate the size of the talent pool who could be qualified matches for the position

Match talent by location with the Location Availability Indicator, so that you get insight into talent opportunities by geographic location

A robust survey based on industry-proven factors determines existing workplace accessibility and possible accommodations for disabled, autistic, or neurodivergent talent
